

**yellow car design\***

**yellow car design\*** is a studio with a simple motto: professional yet affordable graphic design. Yes, you might be starting your own business, might not have an enormous budget to start with, but that does not mean that you have to sacrifice the image that you want your clients to perceive you as.

We understand because we, **yellow car design\***, are in the same situation as you. We are a relatively new business, but we know that 'new' does not mean 'inexperienced'. Indeed, we have a combined amount of 12 years of education in Advertising & Graphic Design and experience in a variety of design areas such as logo/ corporate identity, stationary, business card, poster, brochure, flyer, website, etc,

We are passionate about what we do, and we want our clients to love the designs we create for them as much as we've enjoyed doing them. And we won't charge more for our services that what we could afford to pay ourselves.

We are based in Toronto (Canada) and London (UK) but not only have we worked with local businesses, we've also worked with clients from all around the world, something we consider of great benefit and which has considerably broadened our experience.

We look forward to the opportunity of working with you.
